

**At 09:00 MDT on Tuesday April 27<sup>th</sup>, Xcel Energy (Public Service Company of Colorado) is hosting a joint meeting with the Transmission Outage Coordinators from the Colorado region at the Lookout office in Golden Colorado to discuss current transmission outages, future transmission outages, scheduling, and coordination. Attendees from the transmission areas include but are not limited to the transmission operators from Black Hills Electric Colorado, Colorado Springs Utility, Platt River Power Authority, Public Service Company of Colorado, TriState, Western Area Power Loveland, and the WECC Reliability Coordination.**

**Platt River Power Authority is a bundled entity operating under a NERC waiver. The Platt River Power authority representatives are from their transmission planning/transmission operations area and they do not represent their wholesale merchant function.**
